

Nakshtra Garden

The Sanskrit word Nakshtra means "that which does not decay." Nakshtra Garden is a perfect combination of astrology, Ayurveda, botany, and landscaping based on Indian mythology. There are 27 Nakshtras distributed over 12 months, and every Nakshtra has its own symbolic tree or plant and each plant has its own micro biodiversity that defines the connection with eternal nature. It is believed that when such astral trees grow in their vicinity, we experience a positive atmosphere, spiritual solace, medication, rejuvenation, tranquillity, mental peace, and relaxation.

A complete list of 27 Nakshatras and the names of their respective trees is as follows:
