Vision & Mission

Mission

Ensure that every farmer in India earn a minimum of Rs. 1 lakh per acre per annum.
Nationally expand our "proof of concept" model using scale, speed, and impact.

Vision

Make India a global superpower again.

Our Cumulative Target for FY 23-24

6.5 Crore Fruit Tree Plantations

From my heart

Women: The hidden face of agriculture

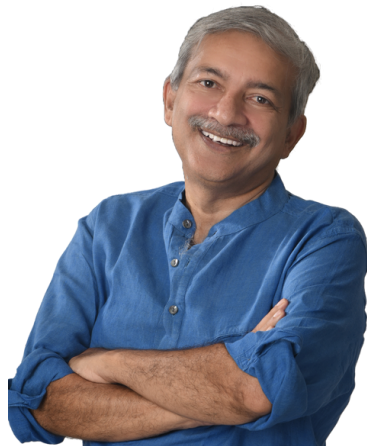

"Rural women are the backbone of sustainable livelihoods and provide food security for their families and communities," UN Secretary-General Ban Ki-moon.

For centuries, women have been actively involved in farming and other agricultural activities, making significant contributions to the country's food security and development. Although they often are left to manage household chores to themselves while working in the fields their contribution has not always been acknowledged.

As I have said often, you cannot make a movement successful without the participation of women. It is high time that their importance in the field of agriculture is recognized and promoted. Let us all work together to empower women farmers and bring them to the forefront of our journey to make India a "Sone ki Chidiya" again.

Jai Hind.

INDIA CAN WAIT NO MORE

Mayank Gandhi

**Managing Trustee & Founder
Global Vikas Trust**

3 cr + Trees

(2019 to 2023)

Achieved

Mayank Gandhi

28 dist – MH, MP
16000+ farmers
4x – 8X income

With your continued support we have planted more than 3cr+ trees till date

INDIA CAN WAIT NO MORE!

District Report

Palghar

Cluster	19
Follow-up visits	333
Plantations bookings	8272
Training sessions	135

Marathwada

Cluster	10
Follow-up visits	610
Plantations bookings	10,02,450
Training sessions	568

Palghar Noteworthy Events

At Ekal farm, the Velchi banana trees have begun to bear fruit. Known for its 8-12 hands per bunch, each bunch of Velchi bananas is expected to weigh between 9-15 kilograms.

Additionally, this variety of banana is more resilient against fungal diseases compared to the G9 variety.

Marathwada Noteworthy Events

Muktheswar Kadhbhane Sir visited the sericulture shed and mulberry plantation to overcome some of the challenges faced.

- First and foremost, he identified the importance of water, since the entire area is a hilly region as water needs to be planned through sprinklers or drip. The majority of farmers belong to the weaker economic side so model farmers have to be coordinated in order to build sheds.
- According to him, the second challenge was the inadequate knowledge among people about sericulture, so training programs were organized to educate the farmers.

CASE STUDY: 1 Marathawada

Name	Ganesh Uttamrao Shinde
Previous crop	Cotton
Previous income/acre	48,000
Current crop	Papaya
Average rate in quintal	Rs.15/kg
Total income/acre	Rs.3,60,100

District Report

Bhopal Region

Cluster	4
Follow-up visits	22
Plantations bookings	7,78,390
Training sessions	149

Burhanpur Region

Cluster	2
Follow-up visits	63
Plantations bookings	1,23,500
Training sessions	230

CASE STUDY-1 MP1

Name	Mahadev Patidar
Previous crop	Gram
Previous income per acre	Rs.82,000
Current crop	Papaya
Average rate in quintal	Rs 1,383
Total income/acre	Rs.1,47,365

Note: Mahadev's harvest is partially complete. His predicted profit/acre is over 2lakhs/acre

CASE STUDY-2 MP2

Name	Chgan Bhika Thate
Previous crop	Gram
Previous income per acre	Rs. 40,000
Current crop	Banana
Average rate in quintal	Rs 1,600
Total income/acre	Rs 5,29,095
