Subject: Engagement with the Global Vikas Trust for Rural Economic Transformation in Beed District

I am delighted to learn of the transformative initiative of the Global Vikas Trust (GVT) in the Beed District towards achieving rural economic transformation through livelihood programs, water conservation, and allied activities.

Hence I am pleased to learn that you wish to formally partner with the Beed District Administration to saturate the entire district, involving cluster-based livelihood program for 50,000 farmers by adopting horticulture, supporting 15,000 farmers through sericulture, creating value chain infrastructure to support the local markets, ensuring trade facilitation; to rejuvenate 1,000 km of seasonal rivers and tributaries; construction of 150 KT Weirs, 500 Cement Nala Bunds, and 3,000 Global River Aqua shafts, Underground dams, CCT (Continuous Contour Trenches), Deep CCT, and Compartment Bunding for groundwater recharge as well as the construction of 1,000 farm ponds in the district.

This is a remarkable initiative, and has the potential to create a unique model in Maharashtra. Hence, I fully welcome this, and can assure you that the District Administration will extend the full necessary support including convergence of all the appropriate schemes in the district, regular review and speedy approvals, as well as formalizing the partnership through a MoU.

Sincerely,

(Devendra Fadnavis)

Shri Mayank Gandhi,
Founder and Chairman,
Global Vikas Trust
